

Livsreise Health and Safety Guidelines for the “Amundsen” Movie Event, November 12, 2021

To attend this event, you must have completed a full round of vaccination for Covid-19 no less than two weeks prior to the event. You must provide proof of vaccination in the form of a vaccination card- or photo of your card as well as a photo I.D. Currently, we are not accepting a negative Covid test in lieu of a completed vaccination series. In addition, attendees will be required to wear face masks that cover both their nose and mouth, while inside the building. Face masks are also required in all other areas of Livsreise per Dane Co. Health Emergency Face Covering Order #3 of October 8, 2021. If you are not able to wear a mask over your nose and mouth and be vaccinated, even through no fault of your own, we are currently not able to allow you to attend the movie. Unvaccinated children will not be allowed to attend.

Use the rear entrance of the building on Main Page Court entrance (next to Sons of Norway) for this event. All staff and volunteers are vaccinated, will be wearing masks and have temperatures checked each day they are at the center. If you are unable or unwilling to wear a mask while at this event, you will not be granted entrance.

There is no way to ensure a completely safe experience when it comes to the risk of Covid infection. When you enter Livsreise for any reason, you acknowledge your understanding of this potential risk. We have taken steps that by now are familiar to you: hand sanitizing stations throughout our building, hand free fixtures in restrooms, and regular sanitizing by a professional team or commercial cleaners.
